GUIDE TO THE SUBJECT INDEX

• This subject index covers issues of *Workers Vanguard* published during 2012, from issue No. 993 (6 January) through the end-of-the-year issue No. 1014 (7 December). During this time, *WV* was published biweekly, except skipping three alternate issues in June, July and August, and skipping the last issue in December.

• The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (*) after the page location of an entry indicates that a correction follows.

• Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:

Iraq Hellhole Made in U.S.A., #995, 3 Feb. (1, 2, 3)
means the headline of the article, issue No. 995, dated 3 February 2012 beginning on page 1 and continuing on pages 2 and 3.

• No entry is listed twice; refer to cross-references for guidance in locating the subject head for particular articles. Cross-references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross-references are separated by a semicolon, while subcategories of subject heads are separated by a comma. Thus:

Ku Klux Klan—See **U.S.: General**. See also **Black Question**.

means that articles about the Ku Klux Klan can be found by going to the subject head **UNITED STATES** and looking under the subcategory **General**. Related articles can be found by going to the subject head **BLACK QUESTION**.

• Individuals mentioned in articles are usually not a subject heading unless the article is primarily about the given person. Foreign political organizations are generally cross-referenced to their appropriate countries, while U.S. political organizations are listed under their organizational names.

• Articles relating to foreign countries are listed under geographical headings and not normally under any other subject heading. Articles that deal centrally with U.S. foreign policy will be found under **U.S.: International Relations** or under the relevant geographical heading. For example, articles about the occupation of Afghanistan will be found under **AFGHANISTAN**.

• Articles under the *Class-Struggle Defense Notes* (CSDN) masthead are by the Partisan Defense Committee, a class-struggle, non-sectarian legal and social defense organization associated with the Spartacist League.

• Abbreviations used in entries are:

C: Correction

CSDN: *Class-Struggle Defense Notes* article

E: Editorial Note

L: Letter

R: Review

S: Series

YSp: *Young Spartacus* article

• Entries for articles that first appeared in the press of another section of the International Communist League indicate the name of the press in parentheses, for example: (*Le Bolchévique*).
