GUIDE TO THE SUBJECT INDEX

• This subject index covers issues of *Workers Vanguard* published during 2014, from issue No. 1037 (10 January) through the end-of-the-year issue No. 1058 (12 December). During this time, *WV* was published biweekly except for three alternate issues in June, July and August and skipping the last issue in December.

• The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (*) after the page location of an entry indicates that a correction follows. Corrections to articles from previous years indicate the issue number and date of the corrected article in brackets.

• Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:

NYPD Frame-Up Machine, #1047, 30 May (12, 11)

means the headline of the article, issue No. 1047, dated 30 May, beginning on page 12 and continuing on page 11.

• No entry is listed twice; refer to cross-references for guidance in locating the subject head for particular articles. Cross-references are of two types: those following the word “see” deal centrally with the subject head; those following the words “see also” are related articles. Subject heads in cross-references are separated by a semicolon, while subcategories of subject heads are separated by a comma. Thus:

Communist League of America—See **Labor: History**. See also **Port Truckers**.

means that articles about the Communist League of America can be found by going to the subject head **LABOR** and looking under the subcategory **History**. Related articles can be found by going to the subject head **PORT TRUCKERS**.

• Individuals mentioned in articles are usually not a subject heading unless the article is primarily about the given person. Foreign political organizations are generally cross-referenced to their appropriate countries, while U.S. political organizations are listed under their organizational names.

• Articles relating to foreign countries are listed under geographical headings and not normally under any other subject heading. Articles relating to Israel and the Occupied Territories will be found under the subject head **ISRAEL/PALESTINE**. Articles that deal centrally with U.S. foreign policy will be found under **U.S.: International Relations** or under the relevant geographical heading, for example, **CHINA**.

• Articles under the *Class-Struggle Defense Notes* (CSDN) masthead are by the Partisan Defense Committee, a class-struggle, non-sectarian legal and social defense organization associated with the Spartacist League.

• Abbreviations used in entries are:

C: Correction

CSDN: *Class-Struggle Defense Notes* article

E: Editorial Note

L: Letter

R: Review

S: Series

YSp: *Young Spartacus* article

W&R: *Women and Revolution* article

• Entries for articles that first appeared in the press of another section of the International Communist League indicate the name of the press in parentheses, for example: (*Le Bolchévique*).
