### GUIDE TO THE SUBJECT INDEX

• This subject index covers issues of *Workers Vanguard* published during 2008, from issue No. 905 (4 January) through the end-of-the-year issue No. 926 (5 December). During this time, *WV* was published biweekly, except skipping three alternate issues in June, July and August, and skipping the last issue in December.

• The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (\*) after the page location of an entry indicates that a correction follows.

• Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:

Victory to the IAM Boeing Strike!, #920, 12 Sept. (12, 11) means the headline of the article, issue No. 920, dated 12 September 2008 beginning on page 12 and continuing on page 11.

• No entry is listed twice; refer to cross-references for guidance in locating the subject head for particular articles. Cross-references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross-references are separated by a semicolon, while subcategories of subject heads are separated by a comma. Thus:

Padilla, Jose—See **Civil Liberties: Cases**. See also **Torture**.

means that articles about Jose Padilla can be found by

going to the subject head **CIVIL LIBERTIES** and looking under the subcategory **Cases**. Related articles can be found by going to the subject head **TORTURE**.

• Individuals mentioned in articles are usually not a subject heading unless the article is primarily about the given person. Foreign political organizations are generally cross-referenced to their appropriate countries, while U.S. political organizations are listed under their organizational names.

• Articles relating to foreign countries are listed under geographical headings and not normally under any other subject heading. Articles which deal centrally with U.S. foreign policy will be found under **U.S.: International Relations** or under the relevant geographical heading. For example, articles about the U.S. occupation of Iraq will be found under **IRAQ**.

• Articles on protests or repression that take place on a campus will generally be found under the subject of the protest or repression. Repression on miscellaneous subjects will be found under **CAMPUS REPRESSION**.

• The periodic columns by death row political prisoner Mumia Abu-Jamal are listed under the subject heading **ABU-JAMAL** in the subcategory **Message from Death Row**; articles on his case and the campaign to free him are usually in the subcategory **Defense Campaign**.

• Articles under the *Class-Struggle Defense Notes* (CSDN) masthead are by the Partisan Defense Committee, a class-struggle, non-sectarian, legal and social defense organization associated with the Spartacist League.

• Abbreviations used in entries are:

C: Correction

CSDN: *Class-Struggle Defense Notes* article

E: Editorial Note

L: Letter

S: Series

W&R: *Women and Revolution* article

YSp: *Young Spartacus* article
